

# THERE ARE TOO MANY VICTIMS OF GUN VIOLENCE. AS A NATION, WE HAVE HAD #ENOUGH

## EVERY YEAR ON AVERAGE

### everyone (all ages)

114,994

people are shot every year

#### Fatalities

33,880  
people die from  
gun violence

11,564  
murdered

21,037  
die from suicide

544  
killed  
unintentionally

468  
killed by legal  
intervention

267  
die but intent  
was unknown

#### Gun Injuries

81,114  
people survive  
gun injuries

60,041  
injured  
in an attack

3,700  
survive a  
suicide attempt

16,428  
shot  
unintentionally

945  
shot by legal  
intervention

### children and teens (ages 0-19)

17,012

children and teens are shot every year

#### Fatalities

2,647  
kids & teens die  
from gun violence

1,565  
murdered

907  
die from suicide

116  
killed  
unintentionally

27  
killed by legal  
intervention

32  
die but intent  
was unknown

#### Gun Injuries

14,365  
kids and teens  
survive gun injuries

11,321  
injured  
in an attack

232  
survive a  
suicide attempt

2,747  
shot  
unintentionally

65  
shot by legal  
intervention

The Brady Center averaged the most recent five years of complete data from death certificates (2011-2015) available via CDC's National Center for Injury Prevention and Control's Web-based Injury Statistics Query and Reporting System, [www.cdc.gov/ncipc/wisqars/](http://www.cdc.gov/ncipc/wisqars/). Data retrieved 1.3.17 and 4.24.17 respectively. For each column total, the sum is based on rounding of CDC averages for each category of fatality and/or gun injury.
